

'Bona' Enamel Range

The Bona range includes the Bona Coffee Drip Kettle and matching Bona Tea & Coffee Canisters. The Drip Kettle has been developed with a thin spout, enabling you to easily control the speed and amount of your pour. Its versatile design also allows you to boil water on induction, gas, or electric stovetops. The matching Tea & Coffee Canisters are dishwasher safe, stackable, and are available in two sizes, either 400ml or 800ml.

800ml Drip Kettle
